

personala recruitment introduction sheet

what is personala?

Based in The Netherlands, Personala is providing full-cycle global recruitment services, mainly focusing on the tech industry. Through years of acquired experience, client-facing multinationals such as Abbott, Merck, BP and notable 'unicorns' as Epic Games or Razer, we gained in-house knowledge of various tech-related sectors. Personala can help you attract the best professionals in Pharmaceuticals, Oil & Gas, Chemicals, Data Science & Engineering, Corporate IT and last but not least the Gaming industry.

why personala?

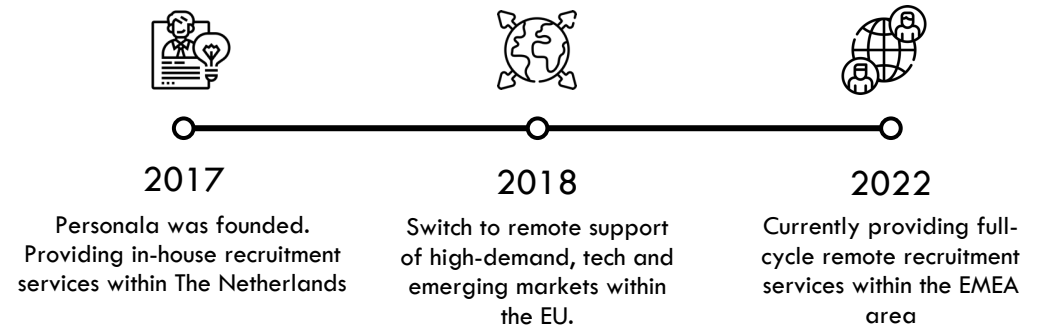

Remote recruiting is our core – we stood at the inception of the 'digital nomad' movement and have encompassed it ahead of the global pandemic. Personala is a data-driven, dedicated business partner providing operational excellence, for which the RPO industry and traditional agencies often lack the capacity. Our success fees start at 20% of the first annual salary. Client references are available upon request.
